

Dear Students and Parents,

March 23, 2020

I hope that everyone is doing well and staying healthy. I am sure you have been getting the updates from the county regarding the school closure and class expectations. This week we will be in "Phase 3" of what the county sent out. In a nutshell you won't be getting any new assignments, just *optional suggested* review materials. I'm going to reiterate what I sent in my update last week.

- Please make sure you can access Edmodo.
- Continue to review Unit 10 notes, graphic organizer and complete online homework and review packet
 - Online homework due dates will be adjusted

I have gotten many emails from students on what you can do to raise your grade. While the fate of this school year is still uncertain, my best advice is to prepare yourself for the quarter 3 benchmark. I have created an overview for each unit we've covered this year. It includes the topics, standards, "I can" statements, and links to helpful videos and resources.

The quarter 3 benchmark will have units 8-10 on it as well as some material from semester 1. I have attached a link to each overview below as well some additional review material.

Please assess what YOU know and what you need to review. We have not yet covered quadrilaterals or 2D and 3D figures, so if you come across problems that look completely foreign just skip them for now.

*I will post keys to the SOL reviews to Edmodo by the end of the week. Whether the SOL actually occurs is not yet certain, but it is still good review for the final/benchmark.

If there is a specific topic that you would like additional resources and practice, please let me know.

I will have my email open during the day to field questions and help to answer as best I can virtually.

Until you hear from me again,

Mrs. Grandy
